

Regional Workshop on Antimicrobial Resistance in Asia

24th – 26th June 2019

The South Centre and TWN organized a second Asian regional workshop to take stock of what actions have been taken against antimicrobial resistance (AMR) and aimed to develop further understanding of the needs and challenges faced by the countries of the region as they implement national action plans. The Workshop agenda and meeting details can be found [here](#). Dr. Nafis Faizi was invited for the meeting and chair the presentation of National Policies on AMR from Nepal, Sri Lanka, Thailand and Timor Leste. The chair's report back presentation is accessible by an email request to nafisfaiziphm@gmail.com.
